E-mail

tester@smartoffice.expert

Networks

MyScreens x

Default network

MyScreens ▼

First Name

John

Last Name

Doe

Create

- username - login for the user
- password / retype password - password for the account
- email - user email
- networks - default value should be kept (used in multiple networks configuration, not used in SmartOffice module)
- default network - default value should be kept
- first name / last name - display name for the user

4. After creation you will be redirected to user permissions

How to change user permissions

1. Go to "Settings" -> "Permissions"

[illegible]

2. In top right corner click "Assign access" and select user

2a. Adding permissions to specific menu

To add permissions, You can click on checkbox to corresponding menu entry. It will grant user access to that menu entry. Some of the checkboxes can be disabled. It can be caused by roles.
